## Wall Stabilization

<i>Description</i>	<i>Unit Price</i>	<i>Quantity</i>	<i>Total</i>
<u>Steel Tubing 6" x 2"</u> Using the applicable guidelines for foundation repair, the south and east walls will be stabilized using 6" x 2" steel tubing spaced ~48" apart. These steel tubes will be bolted to the floor joist and anchored to the foundation footing. RaiseRite will patch interior cracks on repaired walls as well as grout fill behind any gaps on the steel tubes.	\$450.00	16.00	\$7,200.00
<i>Total</i>			\$7,200.00

**AGREEMENT FOR SERVICES** Full terms and conditions are attached in the original estimate email.
